CHAPTER 1

Welcome to Classic Friends

Classic Friends is a live voice app. People open rooms, take a mic seat and talk — about music, cricket, poetry, late-night nothing — while everyone else listens, chats and sends gifts.

Think of it as a lounge that never closes. Every room has a host, up to twelve mic seats and a chat under the seats. You can listen for free, speak when you take a seat, and say thank you with gifts.

🎙️

Rooms

Join any public room with one tap, or open your own and take the host seat.

🎁

Gifts

Roses to Galaxies. Senders earn XP and levels; receivers earn diamonds.

🤝

Friends

Follow hosts, add friends, chat privately, pair up as CP and join a family.

What you need

- A phone or computer with a modern browser (Chrome, Safari, Edge, Firefox). No download is required — you can add the app to your home screen from the browser menu.
- A microphone, if you want to speak. Listening and chatting work without one.
- You must be 18 or older.

💡 **Reading this guide**

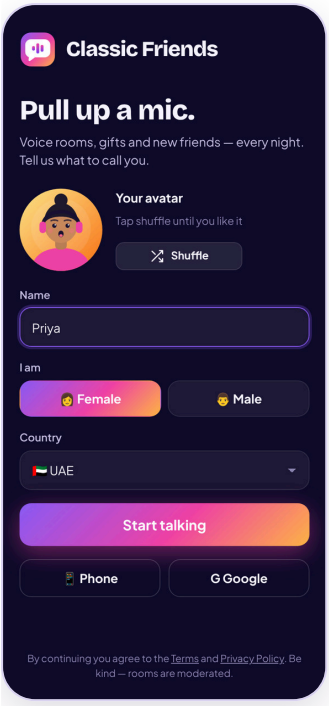

Words shown like `Start talking` are buttons or labels you will see on screen. Numbered circles on pictures match the numbered list beside them.

CHAPTER 2

Getting started

Signing in takes about twenty seconds. There are no forms to fill and nothing to verify before you can listen.

2.1 Sign in

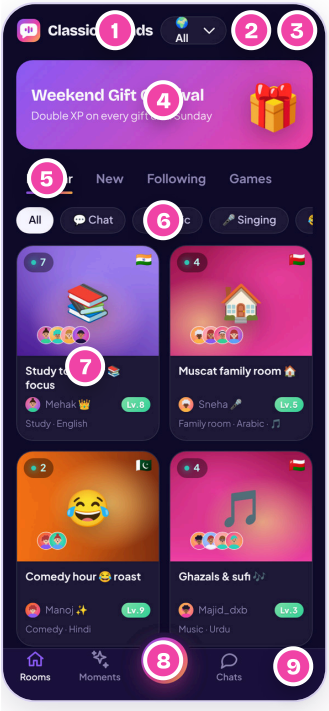

Sign-in screen. Pick an avatar, a name and your country.

1. **Open the app.** After the splash screen you land on the sign-in page.
2. **Choose an avatar.** Tap **Shuffle** until you find a face you like. You can change it later from your profile.
3. **Type your name.** This is what people see in rooms and chats (up to 24 characters). Emoji are allowed.
4. **Pick Female or Male** and your **country**. Your country flag appears next to your name and helps people find rooms near them.
5. Tap **Start talking**. You receive a welcome gift of coins to spend on your first gifts.

The app remembers you on this device, so next time it opens straight to the home screen. **Phone** and **Google** sign-in are enabled by your app provider when the app goes live.

2.2 The home screen

1. **Country filter.** Show rooms from everywhere or from one country.
2. **Search** rooms and people by name or ID.
3. **Notifications.** A pink dot means something is waiting for you.
4. **Event banners.** Current campaigns and competitions. They scroll on their own.
5. **Tabs:** Popular, New, Following (rooms you follow or whose host you follow) and Games.
6. **Topic chips** — Chat, Music, Singing, Comedy, Friendship, Poetry, Ludo, Cricket and more.
7. **Room card.** The number in the corner is how many people are inside right now; the small faces are the people on mic. A lock means the room needs a password.
8. **Create a room** — the glowing mic button opens your own room.
9. **Bottom navigation:** Rooms, Moments, Chats and Me.

CHAPTER 3

Finding a room

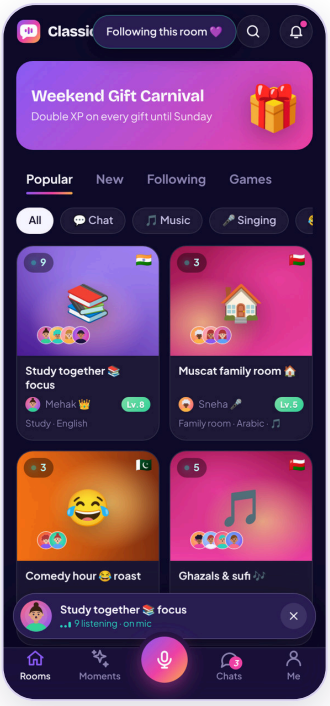

Rooms are sorted by how lively they are. Use the tabs, topic chips, country filter and search to find your people.

Country filter. Tap the flag chip at the top of the home screen and pick a country, or All countries.

Search. Type part of a room name, a person's name, or a Classic Friends ID. Rooms and people are listed separately.

Minimized room. While you are in a room, a floating pill stays at the bottom so you can browse without leaving.

3.1 Joining

1. Tap a room card. You join as a listener — nobody hears you until you take a seat.
2. If the room is private, type the password the host shared with you and tap Join.
3. To leave, tap ⋮ and choose Leave room, or tap the ✕ on the minimized pill. Tapping the ⌄ arrow in the room header only minimizes — you stay inside and keep hearing the room.

> 🔗 **Room links**
> Every room has an ID (shown under its name). Friends can send you a link such as …/`room/4821934`; opening it takes you straight into the room after sign-in.

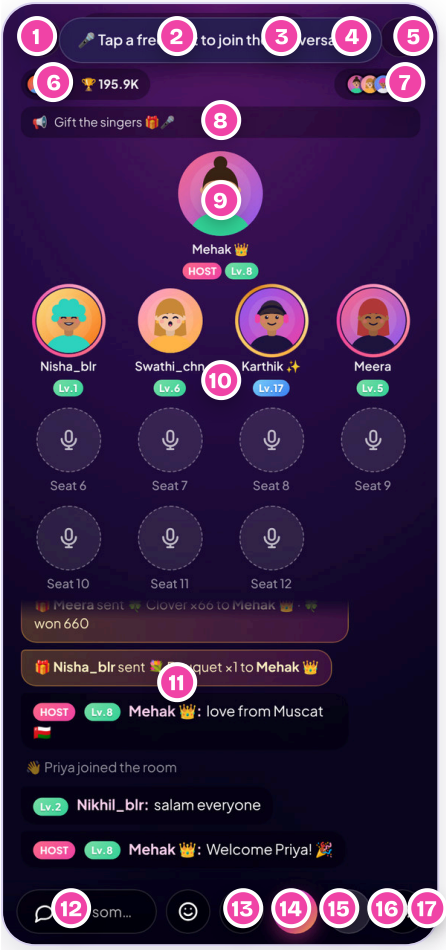

3.2 Reading a room card

On the card	Meaning
Green dot + number	Live right now, with this many people inside.
Flag	The host's country.
🔒	Private room — you will be asked for the password.
Small faces	People currently on mic seats.
Host name + Lv.12	Who runs the room and their level.
Topic · Language · 🎵 · ⚔️	The room's topic and language. 🎵 means the host has set a "now playing" song; ⚔️ means a PK battle is running.

CHAPTER 4

Inside a room

The room screen is where everything happens. Here is every control, top to bottom.

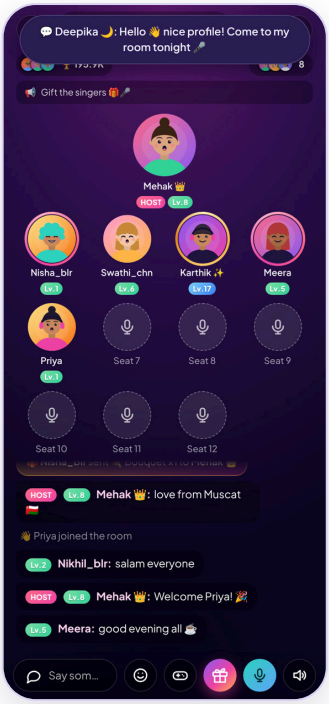

1. **Minimize** — go back to the app while staying in the room.
2. **Room name, ID and host.** Tap the host avatar to open their card.
3. **Follow** the room to find it under the Following tab.
4. **Share** the room link.
5. **More menu** — people list, top gifters, share, report, leave (host: settings, music, mic requests, end room).
6. **Top gifters** and the room's total gifts. Tap to see the full list.
7. **People in the room.** Tap to see everyone.
8. **Announcement** set by the host.
9. **Host seat.**
10. **Mic seats** (8 or 12). A glowing ring means that person is speaking; a red icon means muted; a padlock means locked.
11. **Chat.** Tap a message to open that person's card.
12. **Say something** — opens the keyboard.
13. **Reactions** — floating emoji.
14. **Games.**
15. **Gifts.**
16. **Mic** — take a seat, mute or unmute.
17. **Speaker** — mute or unmute the room's audio for yourself.

4.1 Taking a mic and talking

1. Tap any empty seat, or tap the **mic button** in the bottom bar to take the first free seat.
2. The first time, your browser asks for permission to use the microphone. Tap **Allow**.
3. You are live. When you talk, a glowing ring pulses around your avatar. The mic button turns green.
4. Tap the **mic button** again to **mute** (it turns red). Tap once more to unmute.
5. To **leave the mic**, tap your own seat and choose **Leave the mic**. You stay in the room as a listener.

> 🎧 **Use earphones**
> Earphones stop your speaker from feeding back into your mic, so everyone hears you clearly.

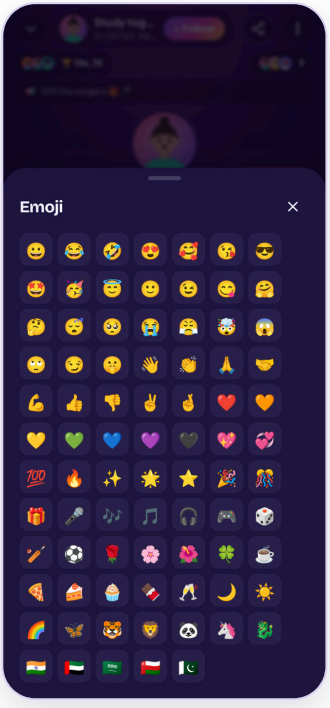

On mic. Your avatar glows while you speak; the mic button is green when live and red when muted.

Apply-to-speak rooms. Some hosts switch their room to **Apply** mode. Tapping a seat then sends a request; you will see *Request sent to the host*. You are seated as soon as the host approves.

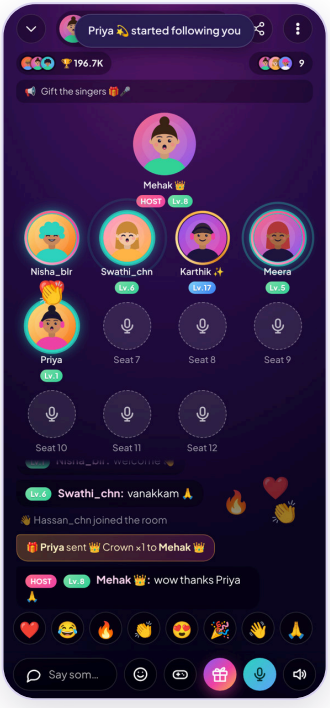

4.2 Chat, emoji and reactions

Say something. Type and press Enter or the send button. Messages are limited to 300 characters and rude words are filtered.

Emoji picker. Tap the smiley in the input bar to add emoji to your message.

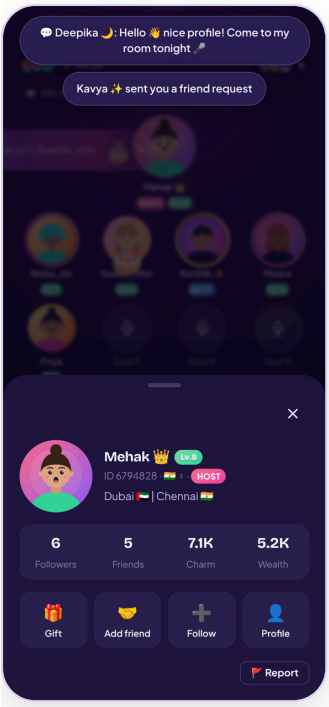

Reactions. Tap the smiley in the action bar for a row of quick reactions that float across everyone's screen.

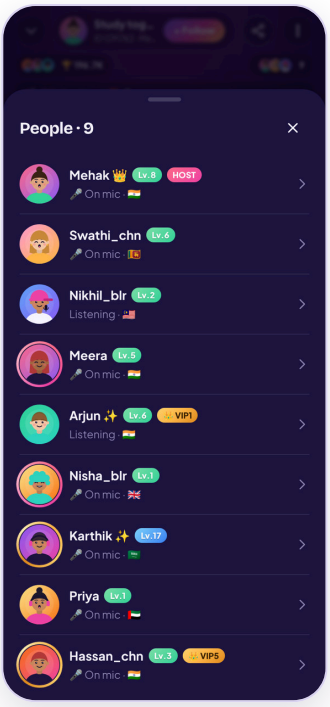

Chat lines carry small badges: **HOST** for the host, **ADMIN** for room admins, a coloured **Lv.** badge for level and **👑 VIP** for VIP members. Gift lines show in gold. System lines in purple tell you who joined and

what the host announced.

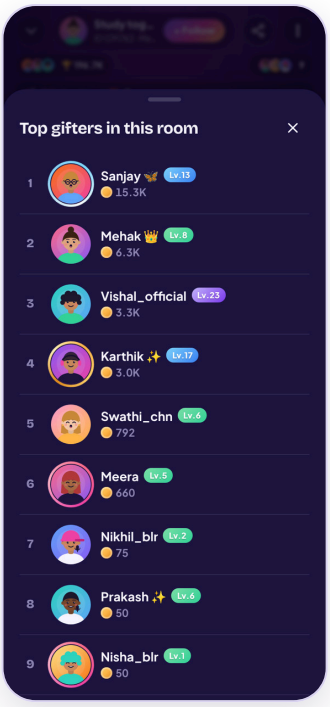

4.3 People in the room

User card. Tap any seat, chat line or name. From here you can send a gift, add a friend, follow, open the full profile or report.

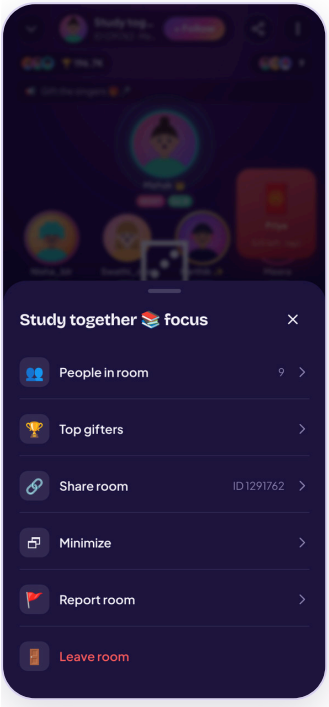

People list. Everyone currently inside, with who is on mic and who is listening.

Top gifters. The room's contribution ranking since it opened.

4.4 Follow, share, minimize, leave

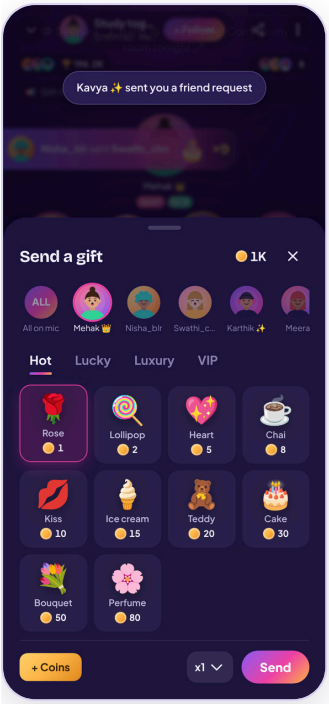

More menu (⋮). Listeners see this list; hosts and admins get extra items at the top.

Follow	Tap **+ Follow** in the header. The room then appears under **Following** on the home screen.
Share room	Sends the room link through any app on your phone, or copies it. Sharing also completes a daily task.
Minimize	Tap the ⌄ arrow. The room shrinks to a pill at the bottom of every screen; tap it to come back, or ✕ to leave.
Speaker	Mutes the room's audio for you only — handy for a phone call. Tap again to listen.
Report room	Sends the room and host to the moderation team with a reason.
Leave room	Exits completely. If you were on a mic, your seat is freed.

CHAPTER 5

Sending gifts

Gifts are how you say thank you, cheer a singer or celebrate a friend. Every coin you send becomes XP for you and diamonds for the person who receives it.

Gift panel. Receivers on top, shelves (Hot · Lucky · Luxury · VIP), gift grid, quantity and Send.

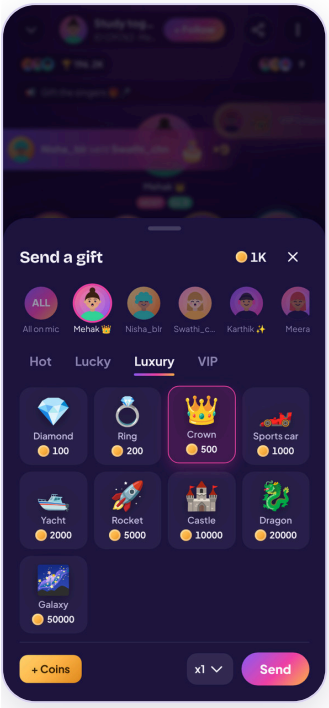

1. Tap the **pink gift button** in the action bar.
2. **Choose who gets it.** Tap one or more faces at the top, or ALL to gift everyone on mic. Only people on a mic seat can receive gifts in a room.
3. **Pick a shelf and a gift.** Prices are shown under each gift in coins.
4. **Set a quantity** — ×1, ×9, ×66, ×99, ×520 or ×999.
5. Tap Send. Tap again quickly to build a combo (×2, ×3…).

Your coin balance is shown in the top-right of the panel. + Coins takes you to the wallet.

5.1 The four shelves

- 🌹 Rose 1
- 🍭 Lollipop 2
- 💖 Heart 5
- ☕ Chai 8
- 💋 Kiss 10
- 🍦 Ice cream 15
- 🧸 Teddy 20
- 🎂 Cake 30
- 💐 Bouquet 50
- 🌸 Perfume 80
- 🍀 Clover 10
- 🎲 Lucky dice 20
- 🎰 Jackpot 50
- 🧧 Lucky bag 100
- 💎 Diamond 100
- 💍 Ring 200
- 👑 Crown 500
- 🏎️ Sports car 1,000
- 🛥️ Yacht 2,000
- 🚀 Rocket 5,000
- 🏰 Castle 10,000
- 🐉 Dragon 20,000
- 🌌 Galaxy 50,000
- 💌 Love letter 300 · VIP1
- 🎆 Fireworks 800 · VIP2
- 🦄 Unicorn 3,000 · VIP3
- ✈️ Private jet 8,000 · VIP4
- 🦁 Golden lion 15,000 · VIP5
- 🔥 Phoenix 30,000 · VIP6

Shelf	What it is for
Hot	Everyday gifts from 1 to 80 coins. Small ones pop on the receiver's seat; bigger ones fly in with a banner.
Lucky	Gifts that can pay you back. Each lucky gift has a chance to return 1×, 2×, 10× or even 50× its price to you in coins. The receiver still gets their diamonds.
Luxury	Statement gifts. Crown and above take over the whole screen with a burst effect; Rocket and above add a screen flash.
VIP	Exclusive gifts unlocked by VIP level. The panel shows which VIP level each one needs.

Luxury shelf with the Crown selected.

Full-screen effect. A Crown ×1 fills the room for everyone inside, with a banner naming the sender and receiver.

Gift lines in chat. Every gift is also written into the chat in gold so nobody misses it.

5.2 What you and the receiver get

For every coin sent	Sender gets	Receiver gets
1 coin	1 XP (towards your level) and Wealth ranking points	0.5 diamonds and 1 Charm point

Diamonds can be exchanged back into coins from the Wallet (100 diamonds → 70 coins). Gifts between CP partners also grow your CP bond; gifts inside a family count towards the family ranking.

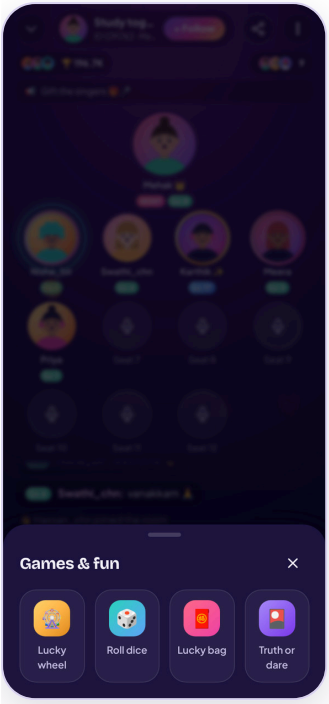

💛 **Gifting is voluntary**

Nobody can make you send a gift, and gifts cannot be refunded. Only spend coins you are comfortable spending.

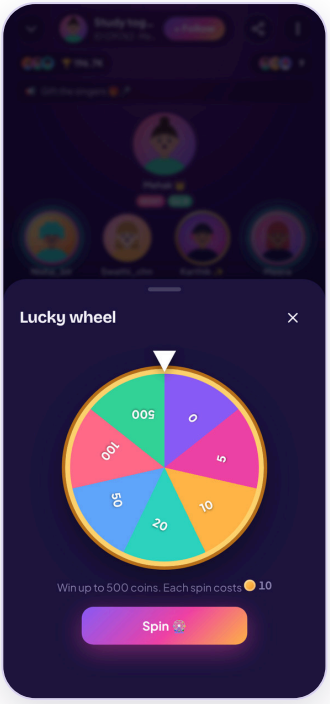

CHAPTER 6

Games and fun

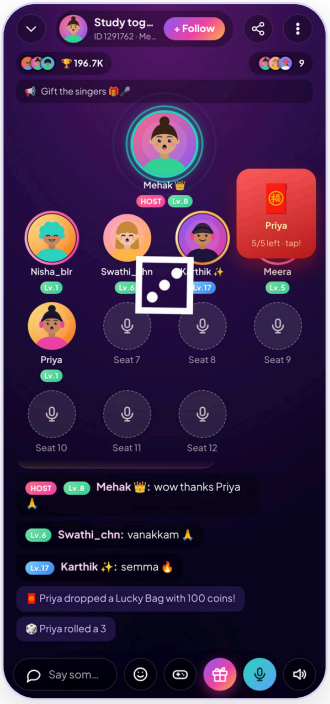

Tap the game-controller button in the action bar to open the games sheet.

Games sheet. Lucky wheel, Roll dice, Lucky bag, Truth or dare — and PK battle for hosts and admins.

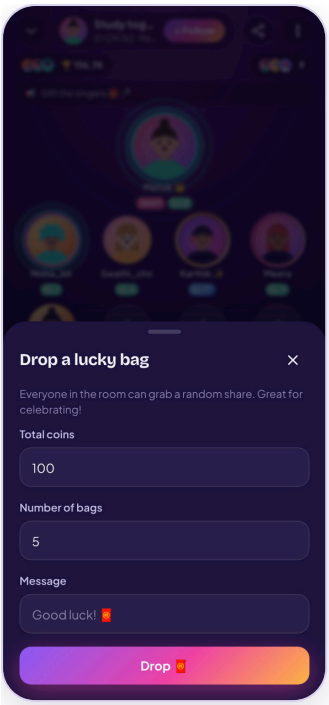

Lucky wheel. Each spin costs 10 coins; prizes go up to 500 coins. Big wins are announced in the room chat.

Roll dice. Free. The result shows to the whole room — great for Ludo rooms and deciding who sings next.

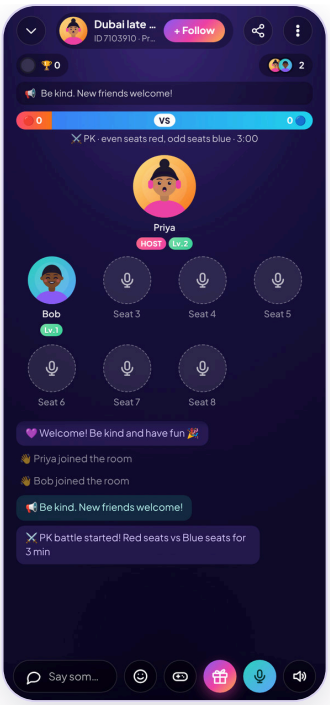

Game	Cost	How it works
Lucky wheel	10 coins per spin	Spin for 0, 5, 10, 20, 50, 100 or 500 coins. Winnings go straight to your wallet.
Roll dice	Free	Rolls 1–6 and shows the result to everyone in the room.
Lucky bag	You choose (min 10 coins)	You drop coins; everyone in the room can grab a random share. Bags disappear after 10 minutes.
Truth or dare	Free	Posts a random truth-or-dare card into the chat for the person on mic to answer.
PK battle	Free (host/admin starts)	Runs for 3 minutes. Gifts sent to even seats score red, odd seats score blue. The winner is announced in chat.

Drop a lucky bag. Choose the total coins, how many bags to split it into and a message.

Grab a lucky bag. When someone drops one, a red bag appears on the right. Tap it fast — each person gets a random share until the bags run out.

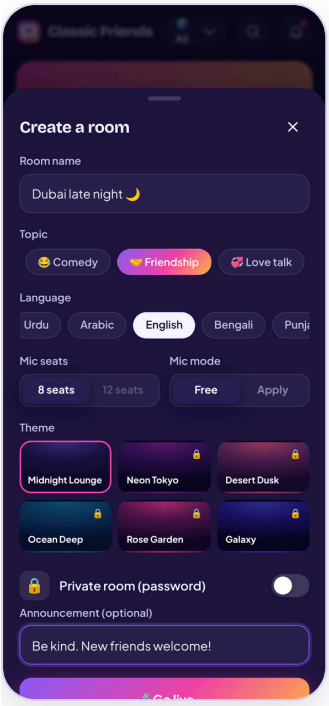

PK battle. A timed contest between red seats (even numbers) and blue seats (odd numbers). Gifts to each side count as points.

CHAPTER 7

Hosting your own room

Anyone can host. You get the host seat, the room tools and the right to invite friends as admins.

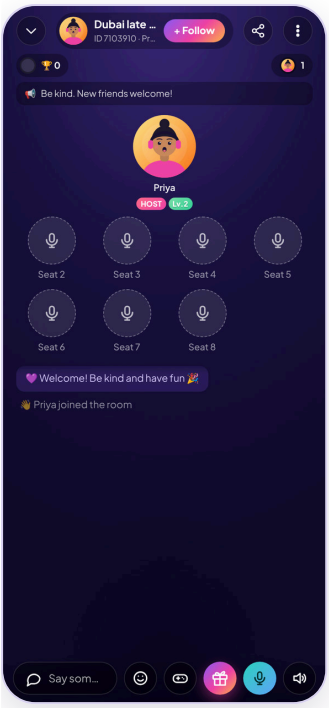

7.1 Create a room

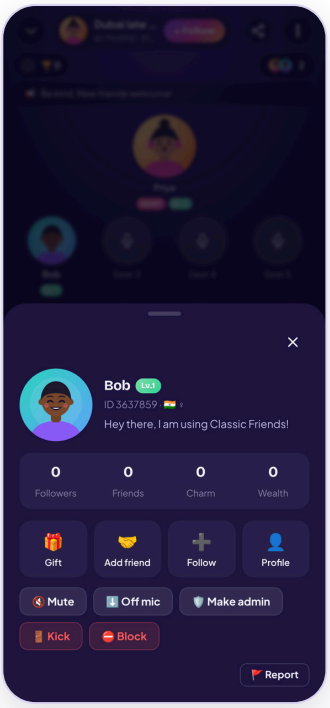

Create a room. Name, topic, language, seats, mic mode, theme, privacy and announcement.

1. Tap the glowing **mic button** in the bottom navigation.
2. **Name** your room — something people will search for, e.g. *Tamil singing night* 🎤.
3. Choose a **topic** and the **language** you will mostly speak.
4. **Mic seats:** 8 for a cosy room or 12 for a big one (12 seats unlock at level 15).
5. **Mic mode:** `Free` lets anyone sit; `Apply` makes people request a seat and you approve them.
6. Pick a **theme**. Midnight Lounge is free; other themes are bought in the Store.
7. Turn on **Private room** and set a password if you want an invite-only session.
8. Write an **announcement** (rules, schedule) and tap `Go live`.

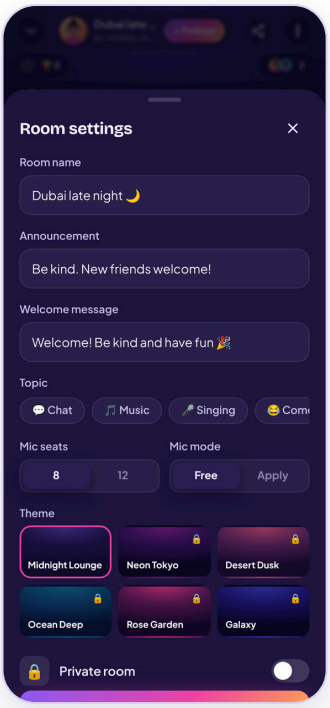

7.2 The host seat and your tools

Your room. You are seated in the host seat and live immediately.

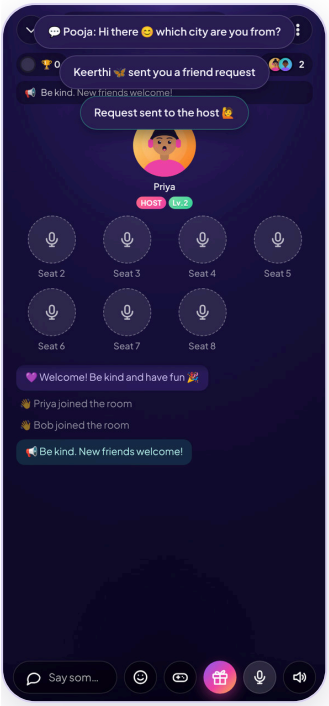

Host actions. Tap a guest's seat: Mute, Off mic, Make admin, Kick and Block appear under the normal buttons.

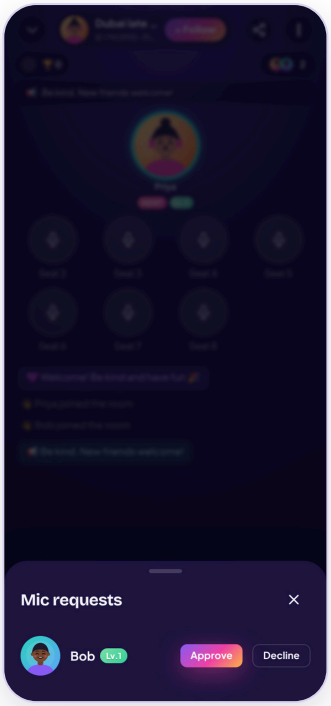

Room settings (⋮ → Room settings). Change anything from the create screen at any time.

Tool	Where	What it does
Mute / Unmute someone	Guest's card	Silences a guest's mic. They see who muted them.
Off mic	Guest's card	Moves a guest back to the audience; they stay in the room.
Invite to mic	Card of a listener	Sends a pop-up inviting them to a free seat.
Make admin / Remove admin	Guest's card (host only)	Admins can mute, remove, invite, lock seats and change settings. Up to 7 admins.
Kick	Guest's card	Removes them from the room; they can rejoin later.
Block	Guest's card	Removes them and bans them from this room.
Lock / unlock a seat	Tap an empty seat	Locked seats show a padlock and cannot be taken.
Mic requests	Games button badge, or ⋮ → Mic requests	In Apply mode, approve or decline people who asked for a seat.
Set "Now playing"	⋮	Shows a spinning disc with a song name. Play the music through your mic.
Announcement & welcome message	Room settings	The announcement sits under the header; the welcome message is the first line new arrivals read in chat.
PK battle	Games	Start a 3-minute red-vs-blue contest.

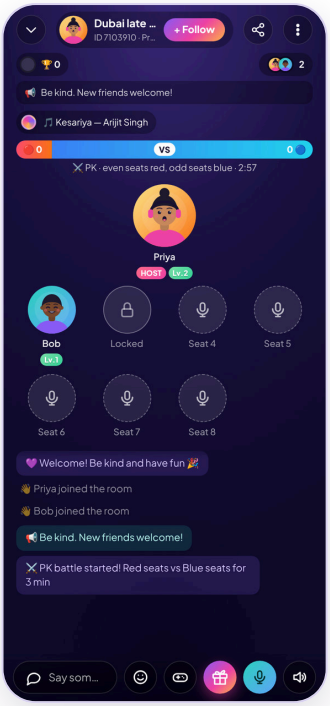

Tool	Where	What it does
End room	⋮ → End room for everyone	Closes the room and sends everyone home.

Apply mode — guest view. Tapping a seat sends a request.

Apply mode — host view. The games button shows a badge; tap it to approve or decline.

Locked seat and a "now playing" pill under the announcement.

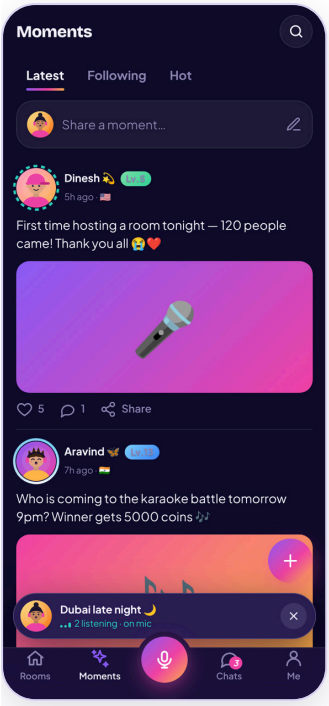

> 🌟 **Host tips**
>
> Greet every new face by name — a welcome line keeps people from leaving. Post a schedule in your announcement, follow the people who gift you, and open the room at the same time each night so your followers know when to come.

> 🛡️ **You own your room**
>
> Hosts are responsible for keeping their room respectful. Use Mute first, Off mic second, Kick for repeat trouble and Block for anyone who should never return. Serious problems should also be reported so the moderation team can act across the app.

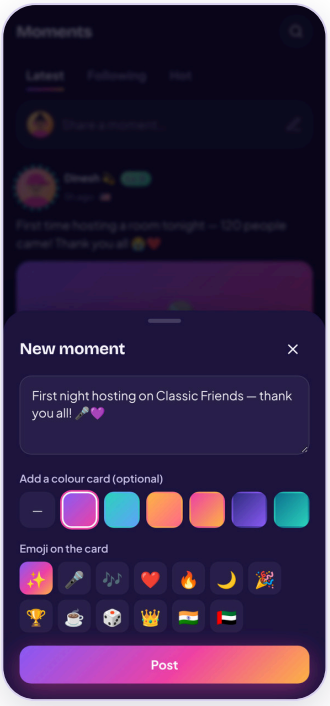

CHAPTER 8

Moments

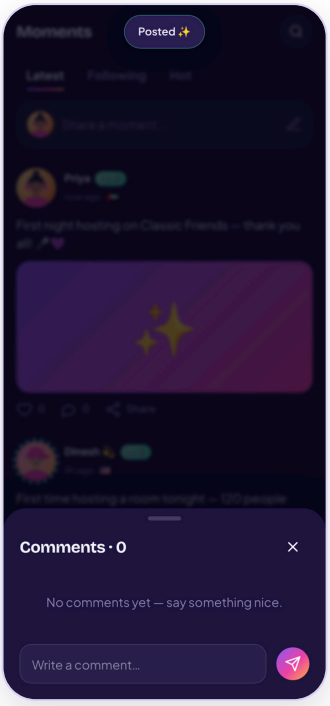

Moments is the app's feed — short posts from people you follow and from the whole community.

Feed. Latest shows everything; Following shows people you follow or are friends with; Hot ranks by likes and comments.

Post a moment. Tap the + button. Write up to 500 characters, optionally add a colour card and an emoji.

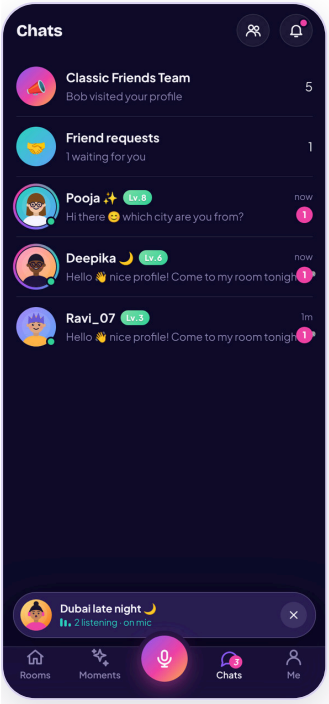

Comments. Tap the speech bubble under a post to read and write comments.

- Tap the heart to like; tap again to unlike. The author gets a notification.
- Tap a name or avatar to open that person's profile.
- Posting a moment completes a daily task (see Chapter 11).

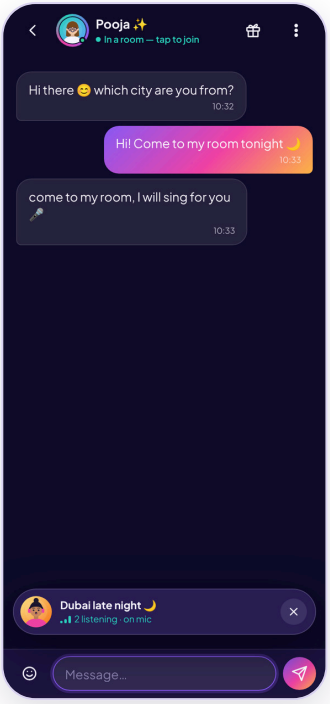

CHAPTER 9

Chats and notifications

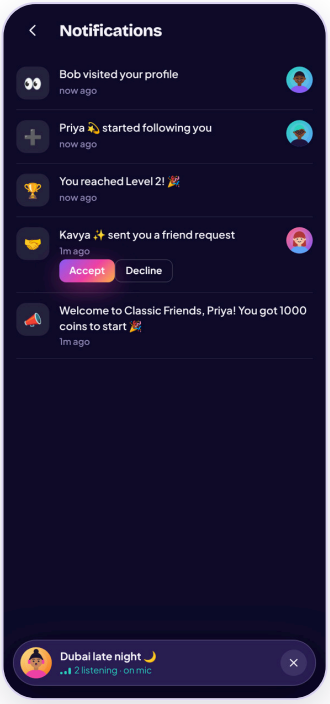

Private messages, gifts in chat, and the notification centre.

Chats. Your conversations, newest first, with unread counts. The **Classic Friends Team** entry holds official messages; **Friend requests** appears when someone wants to connect.

A conversation. Your messages are on the right. If the other person is in a room, tap their name to join it.

Notifications. Gifts, follows, friend requests (accept right here), CP requests, level-ups, likes, comments and system news.

9.1 Starting a chat

Open someone's card or profile and tap **Message** (shown once you are friends). From the chat you can send emoji and gifts — gifts in chat work like gifts in a room. The ⋮ menu lets you view their profile, block them or report them.

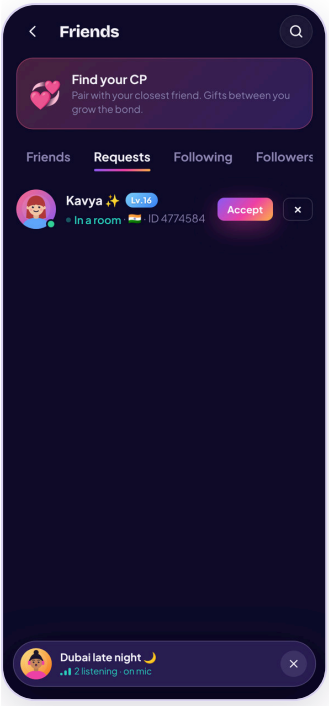

9.2 Who can message you

By default anyone can message you. To limit it to friends only, open **Me → Settings → Who can message me**. Blocked people can never message you.

CHAPTER 10

Friends, CP and families

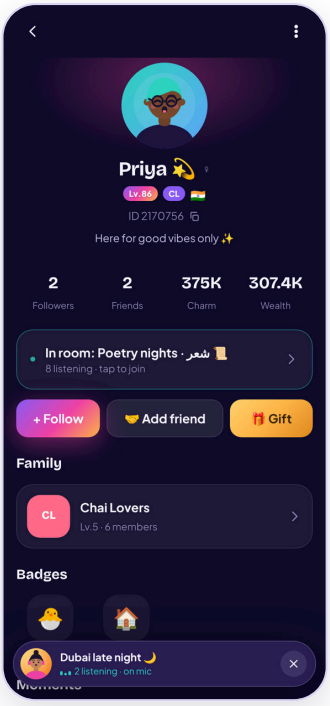

Following is one-way. Friendship is mutual. CP is the closest bond. Families are squads.

Friend requests. Accept or decline. Accepting also makes you follow each other.

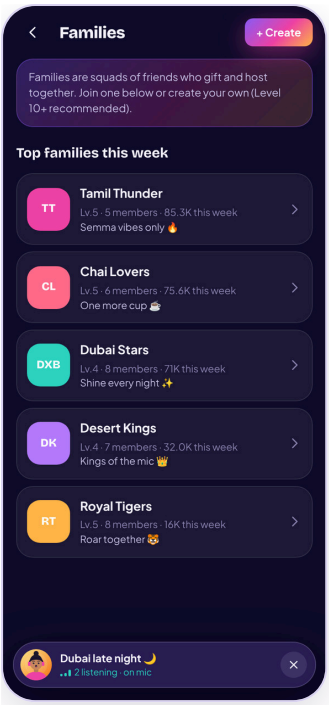

Suggested. Active people you may like. Tap **Add** to send a request.

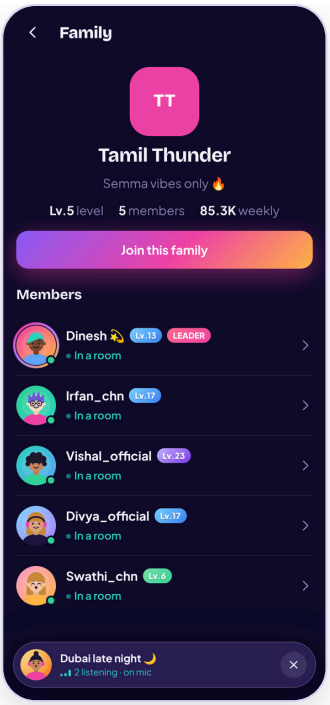

Someone's profile. Follow, add friend or gift. If they are in a room, a green card lets you join it.

Relationship	How	What it gives you
Follow	Tap **+ Follow** on a profile or card.	Their rooms show under Following; their moments show in your Following feed.
Friend	Send a request; they accept.	Private chat, friend lists, and they count towards the Social star badge.
CP (close partner)	Profile → ⋮ → **Request CP**; they accept from notifications.	A 💞 heart shows on your seats when you are in the same room. Gifts between you grow your CP bond. One CP at a time — break it from the Friends screen.
Family	Me → Family → join one, or create your own.	A family badge next to your name, a family level, and a weekly family ranking that every member's gifts feed.

Families. Top families this week. Tap **+ Create** to start your own with a name, badge, slogan and colour.

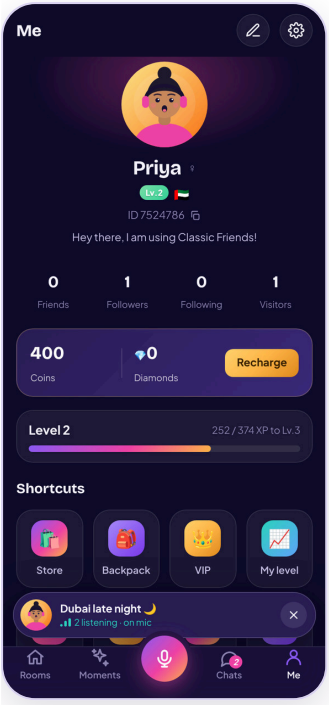

Family page. Level, members, weekly score and the member list. Join or leave from here.

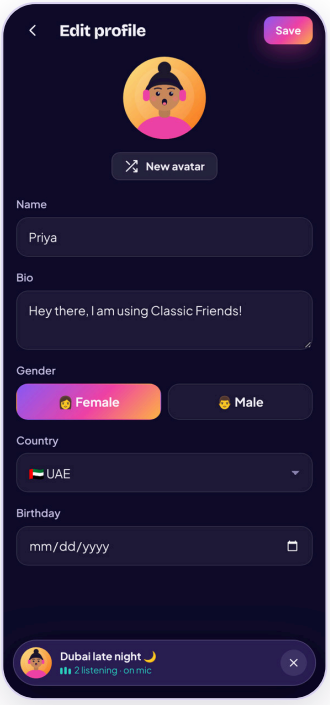

CHAPTER 11

Your profile, coins and level

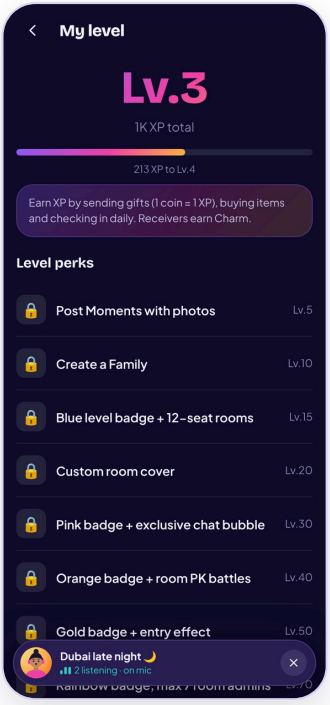

The Me tab is your home base: profile, wallet, level, store, VIP, tasks, rankings and badges.

Me. Your avatar, level, ID, friends/followers/visitors counts, wallet, level progress and shortcuts.

Edit profile (pencil icon): avatar, name, bio, gender, country and birthday.

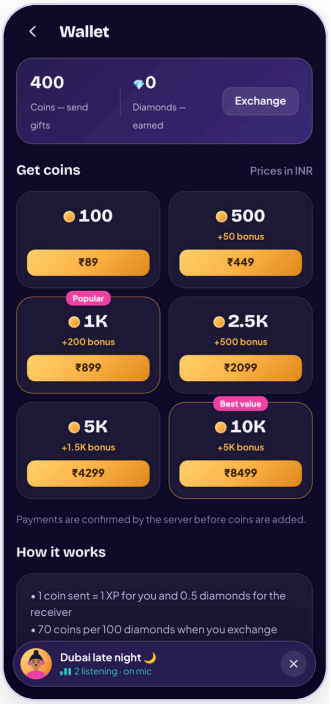

My level. XP progress and the perks each level unlocks.

11.1 Coins and diamonds

Coins — What you spend — on gifts, store items, VIP, wheel spins and lucky bags. Buy packs in the Wallet, earn them from check-ins, tasks, lucky gifts, the wheel and lucky bags.

Diamonds — What you earn when people gift you (half a diamond per coin). Exchange them for coins in the Wallet: 100 diamonds → 70 coins. Hosts may also qualify for payouts — see the app's Terms.

Coin packs — Six packs from 100 to 10,000 coins; bigger packs include bonus coins. Prices are shown in your currency before you confirm.

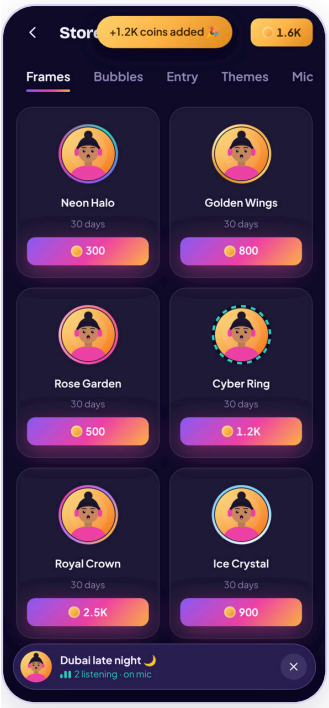

Wallet. Balances, Exchange for diamonds, and coin packs.

11.2 Levels and XP

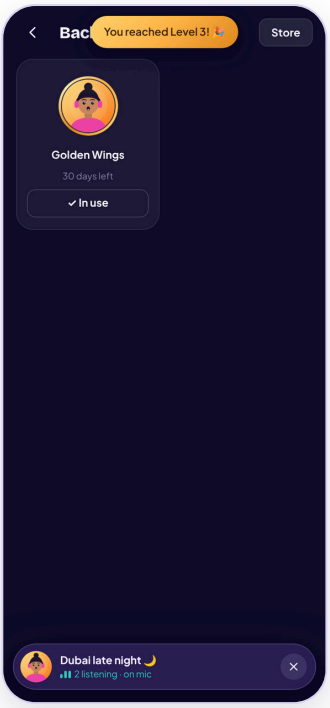

Every coin you send is one XP. Buying store items and VIP also gives XP. Your level badge changes colour as you climb — green (1–9), blue (10–19), violet (20–29), pink (30–39), orange (40–49), gold (50–69) and rainbow (70+).

Level	Unlocks
5	Post Moments with colour cards
10	Create a family
15	Blue badge and 12-seat rooms
20	Custom room cover
30	Pink badge and an exclusive chat bubble
40	Orange badge and room PK battles
50	Gold badge and an entry effect
70	Rainbow badge, up to 7 room admins

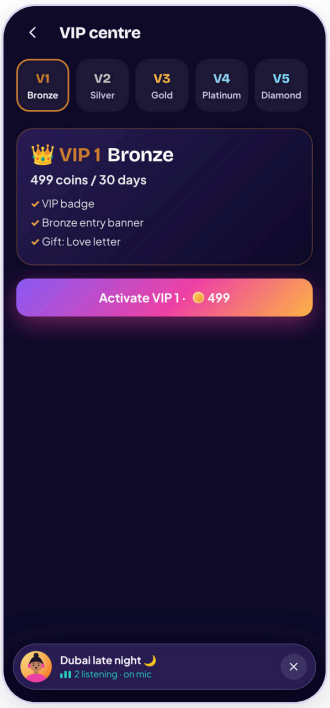

11.3 Store, backpack and VIP

Store. Frames, Bubbles, Entry effects, Themes and Mic waves. Items last 30 days and are equipped as soon as you buy them.

Backpack. Everything you own, with days remaining. Tap Use to equip or swap items.

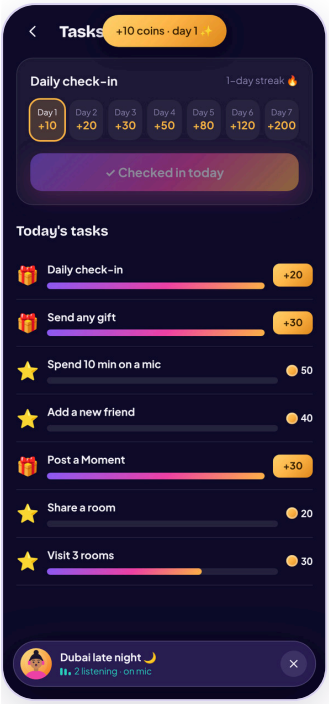

VIP centre. Seven tiers from Bronze to Supreme, each adding perks for 30 days.

Item type	What it changes
Frame	An animated ring around your avatar everywhere in the app.
Chat bubble	The colour of your messages in room chat.
Entry effect	A banner that crosses the room when you enter (e.g. Sports car, Dragon flight).
Room theme	The background of rooms you host.
Mic wave	The colour of your speaking ring.

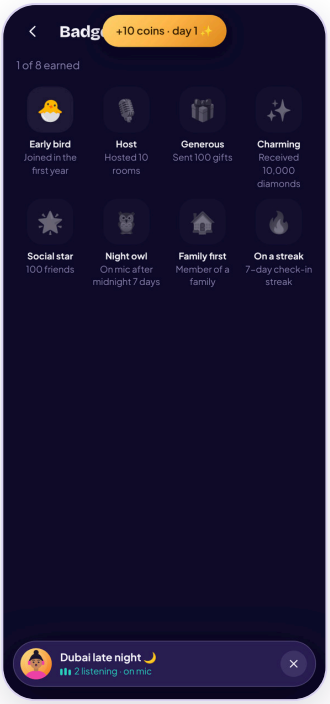

VIP	Coins / 30 days	Highlights
1 Bronze	499	VIP badge, bronze entry banner, Love letter gift
2 Silver	999	Silver name colour, exclusive frame, Fireworks gift, kick immunity from admins
3 Gold	2,499	Gold ID, entry effect, Unicorn gift, no ads
4 Platinum	4,999	Hide your visitor trail, Private jet gift, priority mic
5 Diamond	9,999	Diamond frame, Golden lion gift, exclusive room theme
6 Royal	19,999	Royal entry, Phoenix gift, custom ID

VIP	Coins / 30 days	Highlights
7 Supreme	49,999	Supreme badge, every exclusive gift, personal manager

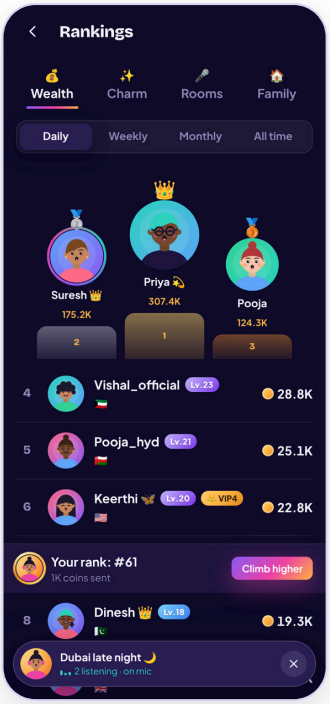

11.4 Daily check-in, tasks, badges and rankings

Tasks & rewards. Check in every day for a growing streak reward (10 → 200 coins over 7 days). Finish daily tasks and tap the gold button to claim coins.

Badges. Eight achievements — Early bird, Host, Generous, Charming, Social star, Night owl, Family first and On a streak.

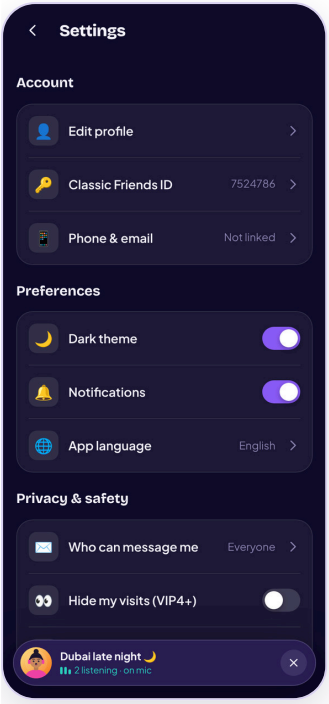

Rankings. Wealth (coins sent), Charm (gifts received), Rooms and Family — daily, weekly, monthly or all time. Your own rank sits at the bottom.

Daily task	Reward
Daily check-in	20 coins
Send any gift	30 coins
Spend 10 minutes on a mic	50 coins
Add a new friend	40 coins
Post a Moment	30 coins
Share a room	20 coins
Visit 3 rooms	30 coins

CHAPTER 12

Settings, privacy and safety

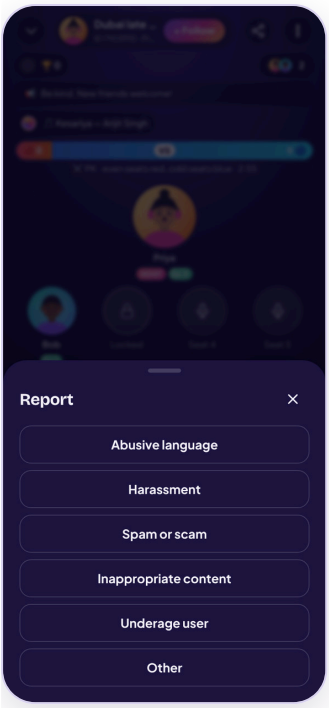

Open Me → the gear icon.

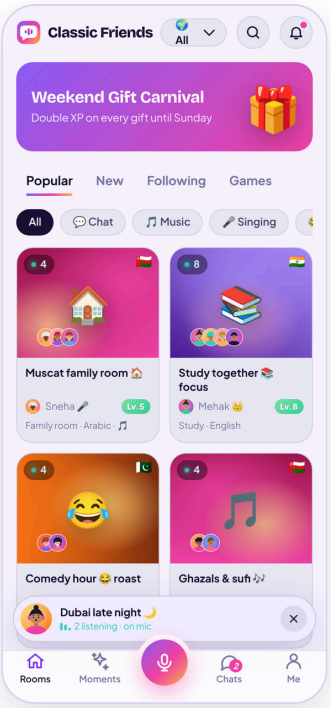

Settings. Account, preferences, privacy & safety, about, log out and delete account.

Edit profile	Change your avatar, name, bio, gender, country and birthday.
Classic Friends ID	Your permanent number. Tap to copy it and share it with friends so they can find you.
Dark theme	Switch between the dark and light look. Rooms always stay dark.
Notifications	Turn alerts on or off.
App language	Choose the interface language.
Who can message me	Everyone, or friends only.
Hide my visits	VIP 4 and above can browse profiles without appearing in the owner's visitor list.
Blocked users	See and unblock people you have blocked.
Log out / Delete account	Log out keeps your account for next time. Delete removes your profile, coins and friends permanently.

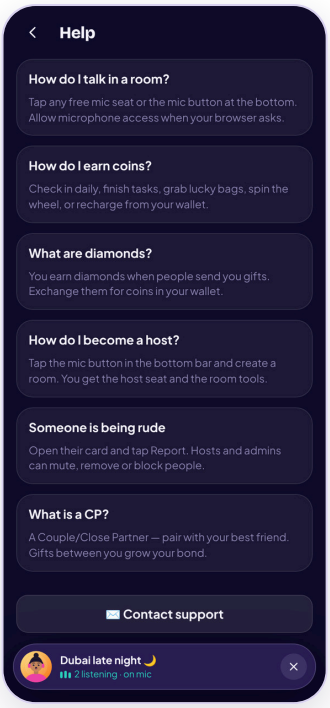

12.1 Staying safe

Report. From any card, profile or chat choose a reason. Reports go to the moderation team with full context.

Light theme. Easier on the eyes in daylight.

Help. Short answers to common questions and a button to email support.

- [ ] **Block** anyone who makes you uncomfortable — they can no longer message you, send requests or join rooms you host.
- [ ] **Report** abuse, scams, harassment or underage users. Hosts and admins can act instantly inside a room; the moderation team acts across the whole app.
- [ ] Never share your password, OTP or payment details in a room or chat. Classic Friends staff will never ask for them.
- [ ] Coins can only be bought inside the app. Anyone selling coins elsewhere is a scam.
- [ ] Use **Private room** with a password for sessions meant for friends only.

CHAPTER 13

Troubleshooting

Quick fixes for the questions we hear most often.

Problem	Try this
Nobody can hear me	Check the mic button is green (not red = muted). Make sure your browser has microphone permission for the app — look for a mic icon in the address bar. On iPhone, Safari must be the browser you are using, not a link preview.
I can't hear the room	Tap the speaker button in the action bar (it may be muted). Raise your phone volume. On some phones the first sound needs one tap on the screen — tap anywhere in the room.
"Microphone blocked" message	The browser was denied mic access. Open the browser's site settings for Classic Friends and allow the microphone, then reload.
My voice echoes	Someone (maybe you) is using a speaker near a mic. Use earphones, or mute yourself while listening.
"Not enough coins"	Open Me → Recharge to buy a pack, exchange diamonds, or earn coins through check-in, tasks and lucky bags.
"Seat is locked" / "Request sent"	The host locked that seat, or the room is in Apply mode — wait for the host to approve you, or ask in chat.
Connection lost / reconnecting	Your internet dropped. The app reconnects by itself and puts you back in your room. If it does not, reload the page.
"Demo mode" message	You are using the offline demo. Rooms are simulated and nothing is saved. Open the live app address to use the real service.
I forgot my account	Your account lives on the device you signed up with. Once phone or Google sign-in is enabled, link it in Settings → Phone & email so you can sign in anywhere.

CHAPTER 14

Quick reference

Badges, icons and the numbers worth remembering.

Badges you will see next to names

HOST	Runs this room	ADMIN	Helps the host manage the room
